

AIR-TO-WATER SCROLL HEAT PUMP WITH GREENSPEED® INTELLIGENCE

Unit with low noise level option

- High full and part-load efficiency
- Compact and simple to install
- Low sound level
- Low refrigerant charge
- Superior reliability

30RQM/30RQP

Nominal heating capacity 179-434 kW
Nominal cooling capacity 154-510 kW

The AquaSnap heat pumps are the best value solution for commercial and industrial applications where installers, consultants and building owners require reduced installed costs, optimal performances and maximum quality.

The new generation AquaSnap features two new versions:

- The AquaSnap (30RQM) version features a compact all-in-one package optimised for full-load applications where reduced investment cost (low Capex) is required.
- The AquaSnap Greenspeed® (30RQP) version features a compact all-in-one package optimised for part-load applications where high SCOP and SEER are required. The AquaSnap Greenspeed® equipped with variable speed fans and variable speed pump provides premium part load efficiency to reduce utility costs over the lifespan of the heat pump. Additionally, the low sounds levels achieved at part load conditions can be very beneficial for sensitive acoustic applications.
