

DUCTABLE AIR-COOLED SCROLL CHILLERS

Packaged unit all in one
High efficiency
Silent operation
Configuration flexibility
Ductable feature for indoor
installation

COOLING

30PA

Nominal cooling capacity 11-22kW

The 30PA cooling only are compact outdoor air/water units. Available in two versions: STD (Standard) and HEE (High Energy Efficiency).

These units have been made for operation indoors, offers an optimal solution for all process cooling applications.

They are equipped with centrifugal fan (STD version) or electronic plug-fan (HEE version), plate exchanger, hermetic scroll compressor, and electronic control with microprocessor, components optimised for the R-410A refrigerant.

The entire range also has the option to include a desuperheater circuit that allows for the production of hot water at a temperature greater than in the condensation circuits.

All units are charged with refrigerant and are tested at the factory, verifying the correct operation of all their components.
