

PRECISION CABINET

- Wide range of single unit water chillers
- Compact and attractive design
- EC motor saves energy
- Auto-adaptive control
- Easy installation

50CO

Cooling capacity: 40-130 kW
Heating capacity: 36-73 kW

Close control unit specifically adapted to meet the needs of rooms with a high heat load or sensitive locations (data centers, computer rooms, autocom rooms, etc.).

The choice of technology used (self-adjusting control which adapts to the room loads, electronically commutated EC motor) can reduce the energy consumption.

Thanks to its skilful design, the **50CO** integrates seamlessly into its intended location.
